Top Industry Experts to Join CMYK Distributors in Digital Information Booth 448 at Graph Expo '12 to Showcase Latest in Pressroom Automation and Waste Reduction Technology

Weymouth, MA- (October 2, 2012) – CMYK Distributors, Inc. is delighted to announce their final line-up of industry experts scheduled to be on-hand in Digital Information Booth #448 at Graph Expo 2012 in Chicago, IL from October 7 - 10, 2012 to personally demonstrate the latest advances in pressroom automation and waste reduction technology. This panel of distinguished printing industry authorities includes:

Christoph Bugs, Worldwide Technology Director and Co-Founder of Digital Information in Zurich, Switzerland, has more than 20 years of experience in the printing and graphics industry. A technological visionary, Mr. Bugs is a leading authority on products and services that enhance quality, productivity, and efficiency in the pressroom. At 16 years old, Mr. Bugs began his professional endeavors as an electronics apprentice, after which he studied Computer Science at the University of Applied Sciences. Upon completion of his studies, Mr. Bugs' career trajectory led to positions including field engineer, networking specialist, and CTO. In 1990, Mr. Bugs joined with Michael Haenni to found Digital Information. As Technology Director/Co-Founder, Mr. Bugs oversees all technological innovations at Digital Information.

Mark J. Williams, CMYK Distributors' Director of Sales, has more than 30 years of experience in the printing industry and he possesses a truly comprehensive understanding of both the dealer and manufacturer perspectives. With a regional and national level sales background, Mr. Williams has been an industry leading salesman for some of the largest companies in the printing and graphics arena including Mitsubishi Imaging, The Pitman Company, X-Rite, and Fujifilm. Mr. Williams' dedication to superior customer service and passion for offering solutions that bring automation and environmental conservation to the pressroom define the CMYK difference. He is committed to partnering with customers and dealers to bring cutting-edge waste reduction technology into their pressrooms—saving time, money, and natural resources.

William J. Fabiano, CMYK Distributors' Director of Technology, has more than 20 years of experience in the printing industry. Mr. Fabiano has a unique combination of conventional and electronic prepress knowledge, as well as extensive color and pressroom experience. With a high level of expertise in printing processes, Mr. Fabiano is one of only two U.S. certified FOGRA experts. He is also one of the leading worldwide experts in press and console configurations. He oversees support, installation and training of all InkZone and Preproofer products for CMYK Distributors, Inc. in North America. Mr. Fabiano's commitment to being consistently ahead of the curve on the latest technology, superior understanding of all aspects of the printing industry, and dedicated thought leadership help CMYK Distributors to set the highest standard of excellence in pressroom automation and waste reduction technology.

Daniel Würgler, CEO of System Brunner AG in Switzerland, oversees the international business activities for the company and is the main point of contact for all System Brunner partners. Mr. Würgler has been with System Brunner since the early 80's and has worked side by side for decades with Felix Brunner, known internationally as the printing industry's "Father of Standardization and Process Control." Daniel Würgler is a true thought leader in the industry and is responsible for the development of new quality control methods for digital processes from prepress to printing. Mr. Würgler specializes in consulting, technical instruction and quality control training for printing companies in Europe and the U.S., process optimization, and standardization.

Robert Werner, Worldwide Product Manager for Keystone Corporation (a Met-Pro Company) for Filter Klear ReKlaim I & II, has more than three decades of technical sales and marketing experience in the printing industry. He has worked for Tower Specialty Chemicals, Printers' Service, Prisco, and Fujifilm, as well as owned his own business. Over the years, Mr. Werner has been consistently recognized for his expertise and professionalism with awards including the Lehigh Valley Sales & Marketing Executive Award in the Pennsylvania region, as well as several awards during his tenure with Prisco for Million Dollar Sales in his designated region. Mr. Werner has successfully interfaced with some of the largest pressroom operations in the U.S. during his career. Currently, Mr. Werner works on the national and international levels of pressroom business with Keystone Corporation's Filtration Solutions, in cooperation with CMYK Distributors, Inc.

Christoph Bugs, Mark Williams, William Fabiano, Daniel Würgler, and Robert Werner will be available during Graph Expo 2012 for private consultations, product demonstrations, and to answer your questions. For more information, please visit www.cmykdistributors.com or stop by Booth #448 at Graph Expo 2012.

About Digital Information

Digital Information. was founded in 1990 in Switzerland by Michael Haenni and Christoph Bugs, both IT specialists with a background in media. Today, the company is internationally recognized in the graphics industry for the quality and ROI of its ink-presets and closed-loop technology products. In close collaboration with a growing number of partners, Digital Information develops and produces software and hardware based solutions for the graphics industry. With several thousand installed licenses, DI-Plot has become a standard name in the graphics industry. The InkZone product line, launched by Digital Information in 2001, has enabled commercial printers to integrate their existing and new presses into their digital networks. For additional information on Digital Information, visit www.digiinfo.com.

About CMYK Distributors, Inc.

CMYK Distributors, Inc., headquartered in Weymouth, MA, is the leading distributor and installer of graphics and printing products that bring automation and waste reduction technology to the industry, while conserving environmental resources. CMYK Distributors, Inc. is the exclusive distributor of Digital Information products in North America, including the renowned InkZone product line. CMYK Distributors, Inc. also has exclusive U.S. distribution rights to Filter Klear ReKlaim I® and Filter Klear ReKlaim II® Fountain Solution Recycling Systems by Keystone Corporation, a Met-Pro company. For more information on CMYK Distributors, Inc.'s products and services, visit www.cmykdistributors.com.

About System Brunner

System Brunner, global leader in process control, color control, quality assurance and standardization, develops and markets system solutions for the graphics industry. For more than 30 years System Brunner has led the way in the definition of industry standards for classic printing processes, from prepress through to printing. System Brunner's competence is based on a comprehensive knowledge of the printing processes and highly developed measuring, interpretation and evaluation methods. EUROSTANDARD/GLOBALSTANDARD is the most comprehensive, internationally recognized industry standard. The reference values are integrated in all the products with INSTRUMENT FLIGHT* technology. For more information on System Brunner, please visit www.systembrunner.com.

About Met-Pro

Met-Pro Corporation, with headquarters at 160 Cassell Road, Harleysville, Pennsylvania, is a leading niche-oriented global provider of product recovery, pollution control, fluid handling and filtration solutions. The Company's diverse and synergistic solutions and products address the world's growing need for clean air and water, reduced energy consumption and improved operating efficiencies. Through its global sales organization, internationally recognized brands, and operations in the United States, Canada, South America, Europe and The People's Republic of China, Met-Pro's solutions, products and systems are sold to a well-diversified cross-section of customers and markets around the world. For more information, please visit www.met-pro.com. Met-Pro common shares are traded on the New York Stock Exchange, symbol **MPR**.
