

SpectroPocket Workflow

Spectrophotometer

- X-Rite i1Pro and i1Pro 2
- X-Rite ColorMunki Design

SpectroPocket

- communicates with spectrophotometer via USB interface
- communicates with smartphone and tablet via Bluetooth
- supplies power to measuring device via an integrated rechargeable USB battery

Smartphone and Tablet

- spectral remission values
- curve charts
- LAB, XYZ, RGB
- densities
- difference measurements (Delta-E)
- exporting/importing values to/from Cloud as CxF files (Color Exchange Format)
